

12v & 24v BATTERY TESTER PROFESSIONAL

12/24v

TBT0900

The new 900 series battery tester checks the efficiency of batteries that are connected on-board vehicles as well as those that are disconnected and stored. It controls the state of 12v batteries that comply to varying standards:

SAE | DIN | EN | IEC | JISS

The tester gives an indication of both the voltage present at the jaws and the peak current that the battery can supply. It also determines the battery condition;

Good | To be charged | To be replaced | Faulty Cell

The 900 series can also check the alternators efficiency on 12v & 24v automotive electrical systems.

Suitable for AGM + START STOP

- 12v Battery Tester
- 12/24v Starter Tester
- 12/24v Alternator Tester
- Voltage Drop Tester
- Backlit Display
- Detachable Printer
- Rugged & Shockproof
- USB Port Connect to PC

Technical Specifications:

Operating Range: Automotive 100~2000CCA
Motorcycle 40~600CCA

Standard Reference:

CCA | SAE | DIN | EN | IEC | JIS > Yuasa Battery

Battery Rating: PB Wet | Gel | Agm | Mf | Vrla | Sli

Operating Voltage: 9~36 Volts DC

Display: Backlit LCD

Printer: Heat Printer (removeable)

Cable Length: 180cm

Onboard Languages:

English | Italian | French | Spanish | German |

Polish | Swedish | Romanian | Finnish

Packaging: Blow Moulded Plastic Case

Dimensions: 370 x 270 x 100mm

Weight: 1.7kg

Product Code: TBT0900

Use with or without printer
