

## Car Optical 2 Wheel Laser Gauges **CO2WLA**

*A British hand-made Wheel Aligner that's cheaper than its mass produced Chinese competitors.*

Car Optical, CO2WLA, is our entry level unit. It's well priced and seriously well made.

It does what it does, and it does it efficiently. One axle at a time. 13inch to 22inch rims. It doesn't break. It doesn't scratch alloys, and like all QuickTrak products it won't break the bank.

But, best of all, as it's a QuickTrak it's made in Yorkshire and Built to Last.

### Features:

- Rechargeable battery operated thus eliminating wires
- Tried and tested 'Hang on Tyre' design
- Works on practically all cars and light commercials with rim diameters between 13" and 22"
- Designed for DIY/Home/Track use (not recommended for Professional Workshops)

### What's included:

- Dished turn plates
- 1 year comprehensive manufacturers warranty
- Vertical wall mounted hanger for easy storage
- Instructions and user manual for step-by-step guide
- Battery charger
