

MULTIFUNCTION BATTERY CHARGER STARTER

TITAN+, is a complete and professional Multifunction instrument that is suitable for charging and starting all 12V and 24V electrical systems in vehicles: cars, commercial vehicles, trucks, small, medium and large vehicles. It is a powerful, reliable device run by a microprocessor, and it is designed to carry out automatic charge cycles specifically for standard Wet batteries and new Gel/AGM batteries with up to 10 charge and analysis phases. Thanks to the new ECS (Electronic Control System) technology, the **TITAN+** series combines excellent reliability during fast charging and maintenance with higher power for carrying out start cycles in complete safety, saving the control panels of modern vehicles.

TITAN+ ASSETS

- 3 programmed charge cycles + 1 manual cycle
- Electronic current adjustment potentiometer
- Electronic Control System
- 10-phase charge cycle
- Sulfate deposit removal + Recovery
- Constant analysis
- Supply Function
- Dual voltage 12/24V
- Built-in electronic protection
- Ideal for Start&Stop + Spiral batteries

TITAN+45 12/24V-45A

Part Number 804010

① ② ③

TITAN+60 12/24V-60A

Part Number 804055

① ② ③ ④

TITAN+100 12/24V-100A

Part Number 804070

① ② ③ ④ ⑤

- Remote control.

Model	Input	Power	Output voltage	Charge current	Starting current	Compatible batteries	Recharge capacity	Dimensions	Weight
TITAN+45	230V 50/60 Hz	1-5 KW	12-24V	1A ► 30A - Arith 1A ► 45 A - Eff.	300 A MAX CC 200 A 1V (EL)	PB - WET - GEL - AGM SPIRAL - MF - VRLA	4-350	310 x 230 x 362 mm	15 kg
TITAN+60	230V 50/60 Hz	1-6 KW	12-24V	1A ► 40A - Arith 1A ► 60A - Eff.	350 A MAX CC 250 A 1V (EL)	PB - WET - GEL - AGM SPIRAL - MF - VRLA	4-450	330 x 250 x 792 mm	18 Kg
TITAN+100	230V 50/60 Hz	2-12 KW	12-24V	1A ► 70A - Arith 1A ► 100 A - Eff.	650 A MAX CC 450 A 1V (EL)	PB - WET - GEL - AGM SPIRAL - MF - VRLA	4-700	380 x 310 x 950 mm	28 Kg
